

Teaming with
ITMS-GES JV, LLC

SBA-Approved 8(a) JV Prime

ITMS  **GES**

Environmental Services Teaming Partner

ITMS-GES is comprised of ITMS, Inc. (ITMS) and Groundwater & Environmental Services, Inc. (GES). The firms are currently in an SBA-approved Mentor Protégé relationship, with GES serving as a mentor to ITMS. The management teams of ITMS and GES have a close working relationship spanning over 15 years to complete \$20.4 M on federal and private contracts. The JV brings with it expertise in environmental consulting and remediation, specifically to sites.

ITMS and GES have successfully worked together on Federal contracts for the Department of Defense (DoD) for 15 years, with many contracts being multiyear indefinite quantity, indefinite delivery (IDIQ) environmental consulting and remediation services at multiple sites located in Hampton Roads, VA; Marine Corps Air Station (MCAS) Cherry Point, NC; MCAS New River, NC; Marine Corps Base (MCB) Camp Lejeune, NC; Naval Industrial Reserve Ordnance Plant (NIROP) Fridley, MN; Naval Station (NAVSTA) Newport, RI; and Marine Corps Recruit Depot (MCRD) Parris Island, SC, as well as associated auxiliary installations. Specifically, GES has effectively performed as ITMS' key subcontractor on over 30 Federal projects, making ITMS-GES a proven team and a low-risk offeror. ITMS and GES have worked together on projects at USACE Louisville, USACE Omaha, and US Army Forces Command (FORSCOM). The CPARS and Past Performance Ratings and comments for these projects demonstrate a pattern of timely completion of quality work, seamless teamwork and cooperativeness with government representatives, and stewardship of government funds.

ITMS ITMS is an environmental consulting and remediation firm providing professional services, technical staffing, and program management to clients since 2000. ITMS is a respected 8(a) certified, economically disadvantaged, woman-owned small business that is well established in both the public and private sectors. Over the last 20 years, ITMS has focused and successfully delivered on contracts across several NAICS codes, including environmental remediation services, program management, consulting, and professional support services. ITMS has fostered and maintained an outstanding record of past performance, effectively balancing technical innovation and sound business practices, which has resulted in cost savings and quality service to our clients.

ITMS brings depth and breadth to handling large, complex contract tasks in a variety of arenas, including environmental remediation, waste management, environmental compliance, abatement initiatives, and demolition programs. ITMS' Federal clients include the Navy (including NAVFAC MIDLANT, NAVFAC HQ, and NAVSUP), USACE Baltimore, Omaha, and Louisville Districts, U.S. Special Operations Command, U.S. Army Forces Command, U.S. Coast Guard, Federal Aviation Administration, Defense Commissary Agency, and Government Services Administration.

GES GES is an environmental consulting and remediation firm established in 1985, and a small business under NAICS 562910. The firm provides environmental consulting, compliance, engineering, remediation, and technical field services for Federal, state, and local government clients, as well as a diverse mix of petroleum, industrial, commercial, and power and utility clients. GES is privately owned and has been in business, under consistent ownership, since 1985. GES operates 28 offices staffed with 380+ employees working on projects across the U.S. and the Caribbean.

GES provides Federal, state, and municipal government agencies with practical, effective, and sustainable solutions by implementing holistic site approaches to remediation and yielding operational efficiencies to lower total lifecycle costs.

Engineering Consulting Services

Geographic Reach

ITMS-GES' federal experience translates easily to performing environmental services for anticipated sites in the Northeast. Our contracts involve work across multiple geographic locations, from the Eastern seaboard to Newport, RI; Pennsylvania; Great Lakes; and Minnesota. Within the AOR for New England (Maine, Massachusetts, Connecticut, and Rhode Island) and the Mid-Atlantic Region (New York, Pennsylvania, and New Jersey), ITMS-GES has 17 offices with an additional seven offices within Maryland, Virginia, North Carolina, and South Carolina.

Ability to Self Perform

ITMS-GES' ability and commitment to self-perform technical field services provide a much greater degree of safety, management, quality assurance, and efficiency that results in the greater value returned to our clients. Close to 80% of our technical staff work in the field, from technicians to engineers, hydrogeologists, and environmental scientists. Our ability to perform field services as well as sound project management sets us apart from other consulting firms.

Labor

ITMS-GES project managers are equipped with a wide array of tools to expeditiously and successfully manage projects, tools ranging from project-scheduling software, up-to-date job cost accounting, tested processes and procedures, and back office support from the management team in the form of engineering, estimating and operations.

Project Examples

Rapid Refueler Operation and Maintenance

Marine Corps Air Station New River, Jacksonville, NC

ITMS provided effective contract management, communicated routinely and as needed with the Navy and maintained an inventory of equipment and parts for this project. ITMS reviewed project plans including the schedule; QCP; HASP; APP; Quarterly and Annual Reports; Data Validation and reports for accuracy and quality and ensured work was conducted on schedule and on budget.

Project Value: \$332,617

Operation and Maintenance (O&M) and Repairs for US Navy Groundwater Treatment Facility (GWTF)

Naval Industrial Reserve Ordnance Plant (NIROP), Fridley, MN

ITMS provided effective contract management, including the selection of GES as the subcontractor to support the project. ITMS communicated routinely and as needed with the Navy and maintained an inventory of equipment and parts for this project. ITMS reviewed project plans to include the schedule; O&M Manual; QCP; HASP; APP; SAP; Monthly Reports; Data Validation and reports for accuracy and quality and ensured work was conducted on schedule and on budget. **Project Value: \$2,652,784**

O&M of Remediation Systems

Marine Corps Air Station (MCAS) Cherry Point, Havelock, NC

ITMS provided effective contract management, including the selection of GES as the subcontractor to support the project. ITMS communicated routinely and as needed with the Navy and maintained an inventory of equipment and parts for this project. ITMS reviewed project plans to include the schedule; O&M Manual; QCP; HASP; APP; SAP; Monthly Reports; Data Validation and reports for accuracy and quality and ensured work was conducted on schedule and on budget. **Project Value: \$4,358,039**

Revised Excavation Plans

Naval Station Newport, RI

GES was engaged to conduct the remedial action under the direction of the Rhode Island Department of Environmental Protection (RIDEM) Office of Waste Management (OWM), Leaking Underground Storage Tank (LUST) program. Upon completion of the project, the GES team prepared a Corrective Action Report documenting activities completed to meet the remedial objectives and demonstrate compliance with revised CAWP requirements. **Project Value: \$552,161**

Core Services

- Environmental remediation
- Remedial design/Construction
- Operation and maintenance
- Site investigation
- Air quality
- Data management, mapping and visualization
- Due diligence
- Ecological services
- Environmental justice
- Emerging contaminants
- Long-term monitoring
- Permitting
- Sustainability
- Vapor intrusion monitoring and mitigation
